

Bayer Crop Science

West Sacramento is the global headquarters of Bayer Crop Science's Biologics group, focused on innovative biological pest management solutions. The facility houses Bayer Crop Science's center of excellence for research and development in this area, making Bayer a leading company for research, development and production of microbial-based crop protection products. www.bayercropscience.us

Better Meat Company

The Better Meat Company's West Sacramento headquarters and research lab is pioneering the next generation of plant-based meat additives. By liquifying and fermenting ingredients, they produce a superfood product that is more sustainable and more delicious than anything else on the market. Their whole-food product is high in protein, iron, fiber, and potassium, and is cheaper than beef. www.bettermeat.co

Bike Dog Brewing Co.

Brewers of fine craft beer in West Sacramento, California. Three loves in life: bikes, dogs, and beers. And our customers of course. www.bikedogbrewing.com/about-us/

Biome Makers

Biome Makers is a Smart Microbial Discovery startup focused on developing tools and products for more sustainable and productive agriculture. They provide soil testing for agriculture under the BeCrop platform that combines DNA sequencing and AI to provide insights based in soil microbiome. www.biomemakers.com

Blue Bottle Coffee

Blue Bottle Coffee takes freshness and small-batch roasting to an extreme found nowhere else in the coffee business! The company prides themselves on single origin coffee beans – coffee beans can be traced back to a single grower, farm, and even single acre. Different from a regular coffee blend, a cup of single origin coffee has a story about the time, place, and grower that it came from. Blue Bottle uses the best certified organic coffees that are farmed traditionally without pesticides. Never pre-blending, Blue Bottle ensures the ideal roast profile for each bean used in a blend. www.bluebottlecoffee.com

Bogle Winery

Though the Bogle Family has been farming in the Sacramento River Delta since the late 1800's, it wasn't until 1968 that Warren Bogle planted the first wine grapes in the region. While growing their vineyard operations, the family started Bogle Winery in 1978. After years of hard work and continued dedication to quality and value, Bogle Winery has become a well-known and widely respected wine producer. With the third generation of Bogle's at the helm, the family continues expansion, which this year includes a custom, temperature-controlled wine warehouse in West Sacramento. Though the majority of their wines are sold domestically, Bogle Winery exports wines to several Asian markets, including Korea, Taiwan, Hong Kong, Vietnam and Japan. www.boglewinery.com

Bratney

Bratney is the leader in design-build construction of agricultural processing facilities for food, seed, feed or grain and packaging needs. For more than 50 years, Bratney has built a reputation for providing state-of-the-art equipment, processes and solutions for their customers. www.bratney.com

Capay Organic

After more than 30 years of organic farming, Capay Organic grows over 130 varieties of fruits and vegetables on certified organic land in the Capay and Imperial Valleys. We practice healthy crop rotation, a diverse ecosystem around the fields, efficiently used local water sources and carefully selected produce varieties that grow well and taste great. Our focus is to supply seasonal, sustainably grown produce to local restaurants, retail outlets, and farmers markets all year long. www.capayorganic.com

Insight Coffee Roasters and Sun & Soil Juice Co.
